

# Melbourne Evening Technical Meeting: Diving & ROV Forum

Wednesday, 16<sup>th</sup> March 2016 –

Wood Group Kenny Offices, 171 Collins Street, Melbourne

**Onsite Registration** 4.30 pm: Movie and Q&A session 5.00 pm – 6.30 pm:

Networking, drinks and finger food (The Long Room, Georges Arcade, 162-168 Collins Street) 6.40 pm – 7.40 pm

**Places are limited so please register prior to the event at [www.trybooking.com/KOII](http://www.trybooking.com/KOII)**

SUT Melbourne presents a documentary film on the successful rescue of a diver who became detached from his umbilical and was stranded on the seabed, created by Bibby Offshore. It will be followed by Q&A panel discussion, with diving and ROV experts, and networking drinks. The panellists for the evening are:

**Dusty Miller, Director, Infinity Offshore** (Skyping from Perth)

Dusty has been involved in all aspects of offshore construction diving since 1976 and has managed many offshore construction, intervention, repair and removal campaigns. In terms of SE Australian assets, he has worked on Longtom, Patricia-Baleen, Casino, Henry and Minerva fields. In the 1990s, he established and later sold his own diving company, the largest in Australia at the time. He has set up air and sea logistic operations for the UN, in Timor Leste, and for INPEX. Recently, Dusty has been involved in establishing use of the Diving Hardsuit, which reduces diving spread costs and extends diving operations beyond saturation water depths.

**David Inggall, Director, DIDesign (Int.) Pty Ltd**

For over 30 years David Inggall has been involved in the ROV and subsea remote intervention industry, covering all aspects of Subsea Intervention, predominately in Europe and now in Australasia. With considerable experience in ROV based intervention, project engineering, design and execution, David is uniquely placed to find efficient and cost effective solutions for subsea projects. He has designed and executed two, patented subsea tie-in systems and created the APPEA 2010 award winning Confined space Remote Inspection System. More recently, David has successfully completed the design, build and execution of a diverless connection tooling system for offshore Nigeria.

**Rob Barton, Project Manager, Shelf Subsea Pty Ltd** (Skyping from Singapore)

Rob has 20 years experience in air and sat diving, ROV operations and project and operations management, including supervisory positions. He is currently based in Singapore with Shelf Subsea.

**Ben Healy, Managing Director-Naval Architect, Thrust Maritime Pty Ltd** (Skyping from Malaysia)

Ben is an Engineer/Naval Architect and has a variety of experience in subsea operations, particularly in ROV and sat diving operations. He is the MD of Thrust Maritime and has led the development of a fleet of Hyperbaric Recovery and Evacuation systems for projects in Asia-Pacific.

**REGISTRATION FEES:** SUT Members \$25: Non-Members \$30\* (additional \$5 if registering at the door)
