Payment online at www.sut.org/events

Chairman: Peter Blake, Subsea Systems Manager, Chevron

Presenter Gregor Scott - Ocean Installer

With some of the most challenging heavy lifts and umbilical work Ocean Installer has ever done, while operating in a new region, the Ocean Installer-team had to pull out all the stops to execute the Total Moho-project.

Presenter Phil Stokoe, Subsea Operations Engineer, Bibby Offshore

Bibby Offshore - Innovative Subsea Umbilical Extraction

Bibby Offshore will present an Operator case study on the considerations and complexities encountered during an umbilical extraction, using a combination of vessels in a challenging timeframe.

Presenter Martin Goodlad, Strategic Technology Manager - Pipeline Bundles, Subsea 7

Pipeline Bundles - 81 Installed and Still Innovating

Pipeline Bundles offer an innovative alternative installation method over traditional pipelay techniques. Although bundles have been installed for over 35 years now, this product is continuously being developed with adoption of new technologies to further enhance benefits to clients for a wide range of field development applications.
